**Dimensions**

| Overall length mm | 2030 | 2560 | 2080 |
| Overall width (air mower) mm | 1710 | 1875 | 1600 |
| Overall width (w/o air) mm | 1310 | 1550 | 1540 |
| Overall height mm | 1850 | 2000 |
| Overall height (ROPS) mm | 1430 | 1640 |

**Wheelbase**

| Wheelbase mm | 1380 | 1440 | 1560 |
| Tyre size (w/o mower) | 13-15x6 smooth pneumatic | 15x6.5-8 smooth semi-pneumatic, low profile tyre | 17x6.5-8 rigid pneumatic |
| Tyre size (w/ ROPS) | 13-15x6 smooth pneumatic | 15x6.5-8 smooth semi-pneumatic, low profile tyre | 17x6.5-8 rigid pneumatic |

**Weight (w/ mower)**

| Weight (w/ mower) kg | 670 | 765 | 705 |

**Transmission system**

- 2-HST w/ Gear reduction

**Speed control**

- 3-hand levers

**Travel speed range**

| Forward km/h | 0-14.5 | 0-17.0 |
| Reverse km/h | 0-8.0 | 0-8.5 |

**Brake type**

- Wet multi disks, foot applied, released

**PTO**

- Shaft drive

**Mower deck**

- Kubota ProDeck
- Kubota ProDeck with ACS
- Hydraulic independent PTO clutch with wet multi disks
- Wet single disk

**Deck depth**

- 6.0 (152)
- 5.5 (140)
- 6.0 (152)
- 5.5 (140)

**Belt type**

- Multi-belt

**Deck steel thickness**

- 0.16 (4.2)
- 0.18 (4.5)

**Anti-scalp roller**

- Rigid
- Swivel

**Cutting width of mower**

- 64 (1632)
- 60 (1524)
- 72 (1829)

**Mounting system of mower**

- Quick joint, parallel linkage

**Seat**

- Deluxe suspension seat
- Deluxe suspension seat with rocking and lumbar support

**Engine stop system**

- Key switch

**Fuel tank capacity**

- 23 litres

**Battery**

- Maintenance free battery: 12 V, CCA: 430A, RC: 80 min

**Alternator capacity**

- AC Dynamo: 14 Amps @ 14 Volts

**Water temperature indicator**

- Standard

**Hour meter**

- Standard

**Fuel gauge**

- Standard

**Kubota Genuine Parts**

Cat.No.298101-ANZ Printed in Japan D RIC '19-JUL.
Two premium, high-performance diesel mowers with the quality and versatility to handle a wide range of mowing jobs.

NEW
ZD SERIES

Top to bottom, front to back, and inside and out, Kubota’s new ZD Series of zero-turn mowers are engineered for quality. Built in the United States, these premium mowers incorporate the best of Kubota’s advanced technology in every detail and function to ensure both superior mowing performance and supreme operator comfort. No matter how you measure quality, the ZD Series delivers.

ZD1200
with 60”, 60”R, 72”, 72”R deck

ZD1000
with 54” deck
ACS Kubota PRO deck
(Aerodynamic Cutting System™)

Mowing deck with smoother airflow and more powerful rotation

**Improved air flow**
The airflow inside the deck has been optimized for faster, more efficient cutting and discharge by preventing clippings from clumping, sticking to the walls of the deck, and recirculating to be cut again. The improved airflow also results in reduced power consumption, better work efficiency, and increased fuel efficiency.

**Improved work efficiency**
An improved airflow ensures better cutting efficiency. That means you can get the job done faster and with up to 27% better work performance.

**New spindle shaft**
New larger durable spindle shaft creates a better airflow inside the deck. It is also more durable.

**Improved fuel efficiency**
The ZD Series does more on less fuel, thanks to the ACS Kubota PRO deck's more efficient cutting performance and better fuel/horsepower balance—up to 22% better.

**New clean-cut blades**
The redesigned cutting blades have a new shape that improves both cutting efficiency and overall load balance, which creates a better airflow inside the deck ensuring cleaner cutting performance. These new blades also provide a longer service life so you won’t need to replace them as often.

**New flexible discharge chute**
Manufactured from a flexible yet strong material, the discharge chute has been redesigned to ensure a smoother discharge and more uniform outflow of clippings.

*Kubota in-house test result.*
Engineered for superior cutting performance and outstanding operability.

New large and bright LCD panel
(2Z1200 only)
The large LCD meter—the biggest in its class—shows all of the key indicators you need to maximize cutting performance and operability, including engine oil pressure gauge, water temperature gauge, fuel level, and voltmeter. A new hour meter lets the operator know when maintenance or service is required.

New ergonomically designed control layout
For faster operation and better ergonomics, all of the mower deck controls are grouped on the right side within easy reach of your right hand, letting you quickly and easily adjust the cutting height. A tone cutting height adjustment dial is easier to see and simplifies the setting of the cutting height.

New low profile tires
Low-profile tires at the rear further improve the ZD Series’ stability and traction on turf. Their wide tread helps protect the turf from damage during mowing.

Outstanding stability
The ZD Series feature a low center of gravity to help improve the weight/balance and provides stability on slopes and uneven ground. When combined with the ZD Series’ long wheelbase, wide, large-diameter rear tires, and fuel tanks mounted above the tires and below the seat, the result is outstanding stability on a variety of terrains.

Shaft drive mower
Without drive belts and pulleys, the drive shaft smoothly transfers power from the engine to the deck. Shaft drive also requires less maintenance and provides greater dependability.

Kubota diesel engines and durable transmission
With over 25 million engines produced since 1922, Kubota engines are recognized around the world for their proven quality and reliability. Powerful yet clean and quiet, the ZD Series’ rugged diesel engines give you unparalleled performance, productivity, and economy. The ZD Series’ dependable engines let you power through tough mowing jobs with ease and efficiency. These technically advanced engines are also environmentally friendly, thanks to excellent fuel economy, enhanced combustion efficiency, and low vibration and noise levels. These engines are paired with Kubota’s original hydrostatic transmission that offers faster, smoother response under all loading conditions. Except for an occasional fluid change, the hermetically-sealed structure requires no maintenance and has no belts to change.

Kubota Original Engine

New HST levers
Redesigned HST levers not only provide more legroom, but also more settings to choose from, ensuring smoother operation, better zero-turn maneuverability, and greater job efficiency.

New damper force adjustment
Available only with Kubota mowers, this 3-position lever lets you adjust the damper force to the optimum level for your personal comfort.

Hands-free parking brake
Conveniently located on the platform under your feet, the parking brake can be easily engaged and released by pressing it with either foot while keeping both hands on the HST levers.

Hydraulic deck lift
A 2-pedal hydraulic deck lift system keeps you mowing in spite of obstacles by letting you easily raise and lower the deck with your foot.

Adjustable front axle (oscillating/rigid)
Choose from two front-axle setups to optimize mowing comfort and performance: adjustable for a smooth ride, or rigid for an even cut while mowing on rough terrain.
Designed to keep you comfortable and productive until the job is done

New suspension seat
A more comfortable seat means less operator fatigue and greater productivity. With dual adjustable armrests, higher backrest, and lumbar support, the ZD Series’ fully padded and reclining bucket seat ensures a high level of comfort. The seat can be adjusted upward, forward and backward to let operators of all body types find the perfect position that will keep them comfortable and productive all day long.

New, thicker platform mat
Thicker and more durable, the redesigned platform mat also helps reduce noise and vibration for more comfort during mowing tasks. The mat’s grip pattern also has been improved to make getting on and off the mower easier than before.

New and bigger storage box and cup holder
Store personal items as well as two beverage cups in the handy storage box and cup holder beside the seat.

New foldable ROPS*
The new ROPS is now compliant with not only OSHA standards, but also ISO standards. The ROPS conveniently folds for easier storage and transportation of the mower.

Maintenance lift
Routine maintenance underneath the mower is quick and simple, thanks to Kubota’s innovative two-pin, tilt-up maintenance lift. A simple operation raises the front of the ZD Series even with the mower deck still attached.

* The ROPS complies with Occupational Safety and Health act (OSHA) 1928.52, International Organization for Standardization (ISO) 21299.
With a bigger engine and wider mower deck, the ZD1200 can get the job done with speed and efficiency.

• 19.3HP Kubota diesel engine
• High-back deluxe suspension seat
• Full-flat operator platform with thick cushion mat
• Hands-free parking brake and hydraulic deck lift
• Adjustable front axle
• Low profile drive tires
• Maintenance lift

Versatile and reliable, the ZD1000 compact mower can handle jobs big and small.

• 24.8HP or 29.1HP Kubota diesel engine
• High-back Deluxe suspension seat
• Full-flat operator platform with a high cushion mat
• Hands-free parking brake and hydraulic deck lift
• Adjustable front axle
• Semi-pneumatic (flat-free) front caster tires
• Low profile drive tires
• Maintenance lift

“Catch All” hopper style grass catcher (ZD1200 only)
This hopper style grass catcher holds 402 litres of clippings. The hopper is easy to remove and can be emptied while the operator remains seated.

“Catch All” 2-bag style grass catcher
This 2-bag style grass catcher holds even more, allowing the operator to mow longer between stops to empty the grass catcher. To empty it, simply unlock the lid, and the bag slides out.

Optional Attachments

“Catch ALL” hopper style grass catcher

Hitch kit
With optional hitch kit, the ZD can tow a trailer or cart carrier for transporting a blower, trimmer, fertilizer, or other work supplies.

Operator Controlled Discharge Chute
The discharge chute cover over the grass clippings outlet can be opened and closed with single lever, letting you temporarily shut the outlet to avoid sending clippings onto flowerbeds or roads.

Mulch kit and work lights are available for all models. See dealer for details.
